

B.Com Semester Vth:

Business Operations:

Hello students this is your second subject apart from Labour Welfare Laws that i will be taking .

Business you people very well know about ...what it means ...how to do....some laws regarding business...and so on.

As far as this paper is concerned it will deal about the operation part of the business that is the things that will make the business to run effectively and efficiently.It will deal with the operation management .

Meaning and scope of the paper:

Everything that happens within a **company** to keep it running and earning money is referred to collectively as **business operations**. **Business** plans often include a section dedicated to **operations** so that **company** founders understand the :

- systems,
- equipment,
- people, and
- **processes** to make the organization function.

From the next class we will be directly moving on the course content...so please kindly note the syllabus of this paper.
